

We celebrate two decades of company history

A special event is behind us: in October 2023, we were able to look back on **20 years of Delphi Organic!** What began with a vision has developed into a remarkable journey characterized by **commitment, innovation** and **teamwork**. Since the beginning, our mission has remained unchanged: We stand for **absolute reliability** and the provision of **first-class products**. We take this milestone as an opportunity to pause and recognize the moments that have brought us this far.

We would like to **thank** our customers, partners and employees for their **continued support** and **trust** in our expertise. With the experience of the last 20 years and the enthusiasm for what lies ahead, we are ready to reach many more milestones.

**We wish you
Happy Holidays and
success, health and good luck
for 2024**
